Figures

- We found a strong correlation between high MDI scores and superior business performance (McKinsey).
- ..., every dollar invested in UX brings 100 in return. That's an ROI of 9,900%. (Forbes)
- 42% of people would pay more for a friendly, welcoming experience (PwC)
- Conversion Optimisation: 200% better with improved UI + 400% higher after UX overhaul (LinkedIn)
- ...

FAST LANDING PAGE? PRODUCT PAGE? A SIMPLE FORM?

In theory, websites can be created quickly using Webflow, Framer, or AI tools. In practice, however, these tools do not meet critical enterprise requirements, or only do so inadequately: they lack scalability, performance, full control, security, and compliance.

What's the
problem?

Tomorrow

A simplified timeline of an
Project implementation

LAIV turns any
enterprise CMS
into a no-code
solution.

DIRECT, AGILE, SMART, UNCOMPROMISING... IN SHORT:

LAIV closes the gap between AI promises and enterprise reality. We would be happy to show you in a demo how LAIV works and how it could save you valuable resources.

How?

No compromise
in quality across
all disciplines

LAIV is flexible

Designers are flexible in their creativity and work as usual with their tool

LAIV is accessible

All components are fully accessible, semantic, set, clean code...

LAIV has no strings attached

All LAIV functionality in all aspects stay as they are

LAIV is headless

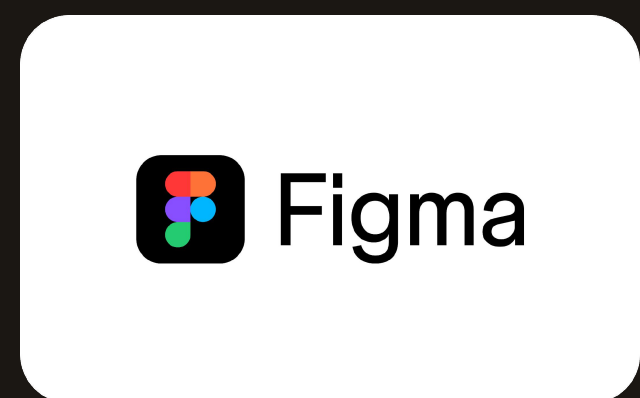

Along with ibexa, also any other headless system can LAIV-ified

What have
we built?

Headless System

Worst Case Scenario

A COLLEAGUES QUOTE

"Genius! It solves a real pain of
so many clients of us"

ADAM WÓJS - IBEXA DIRECTOR OF ENGINEERING

AGENCY PARTNER QUOTE

"This is awesome! Now I can focus on the interesting stuff instead of building generic components"

HEAD OF FRONTEND DEVELOPMENT

YOU SAY

...got it, but what's in for me?

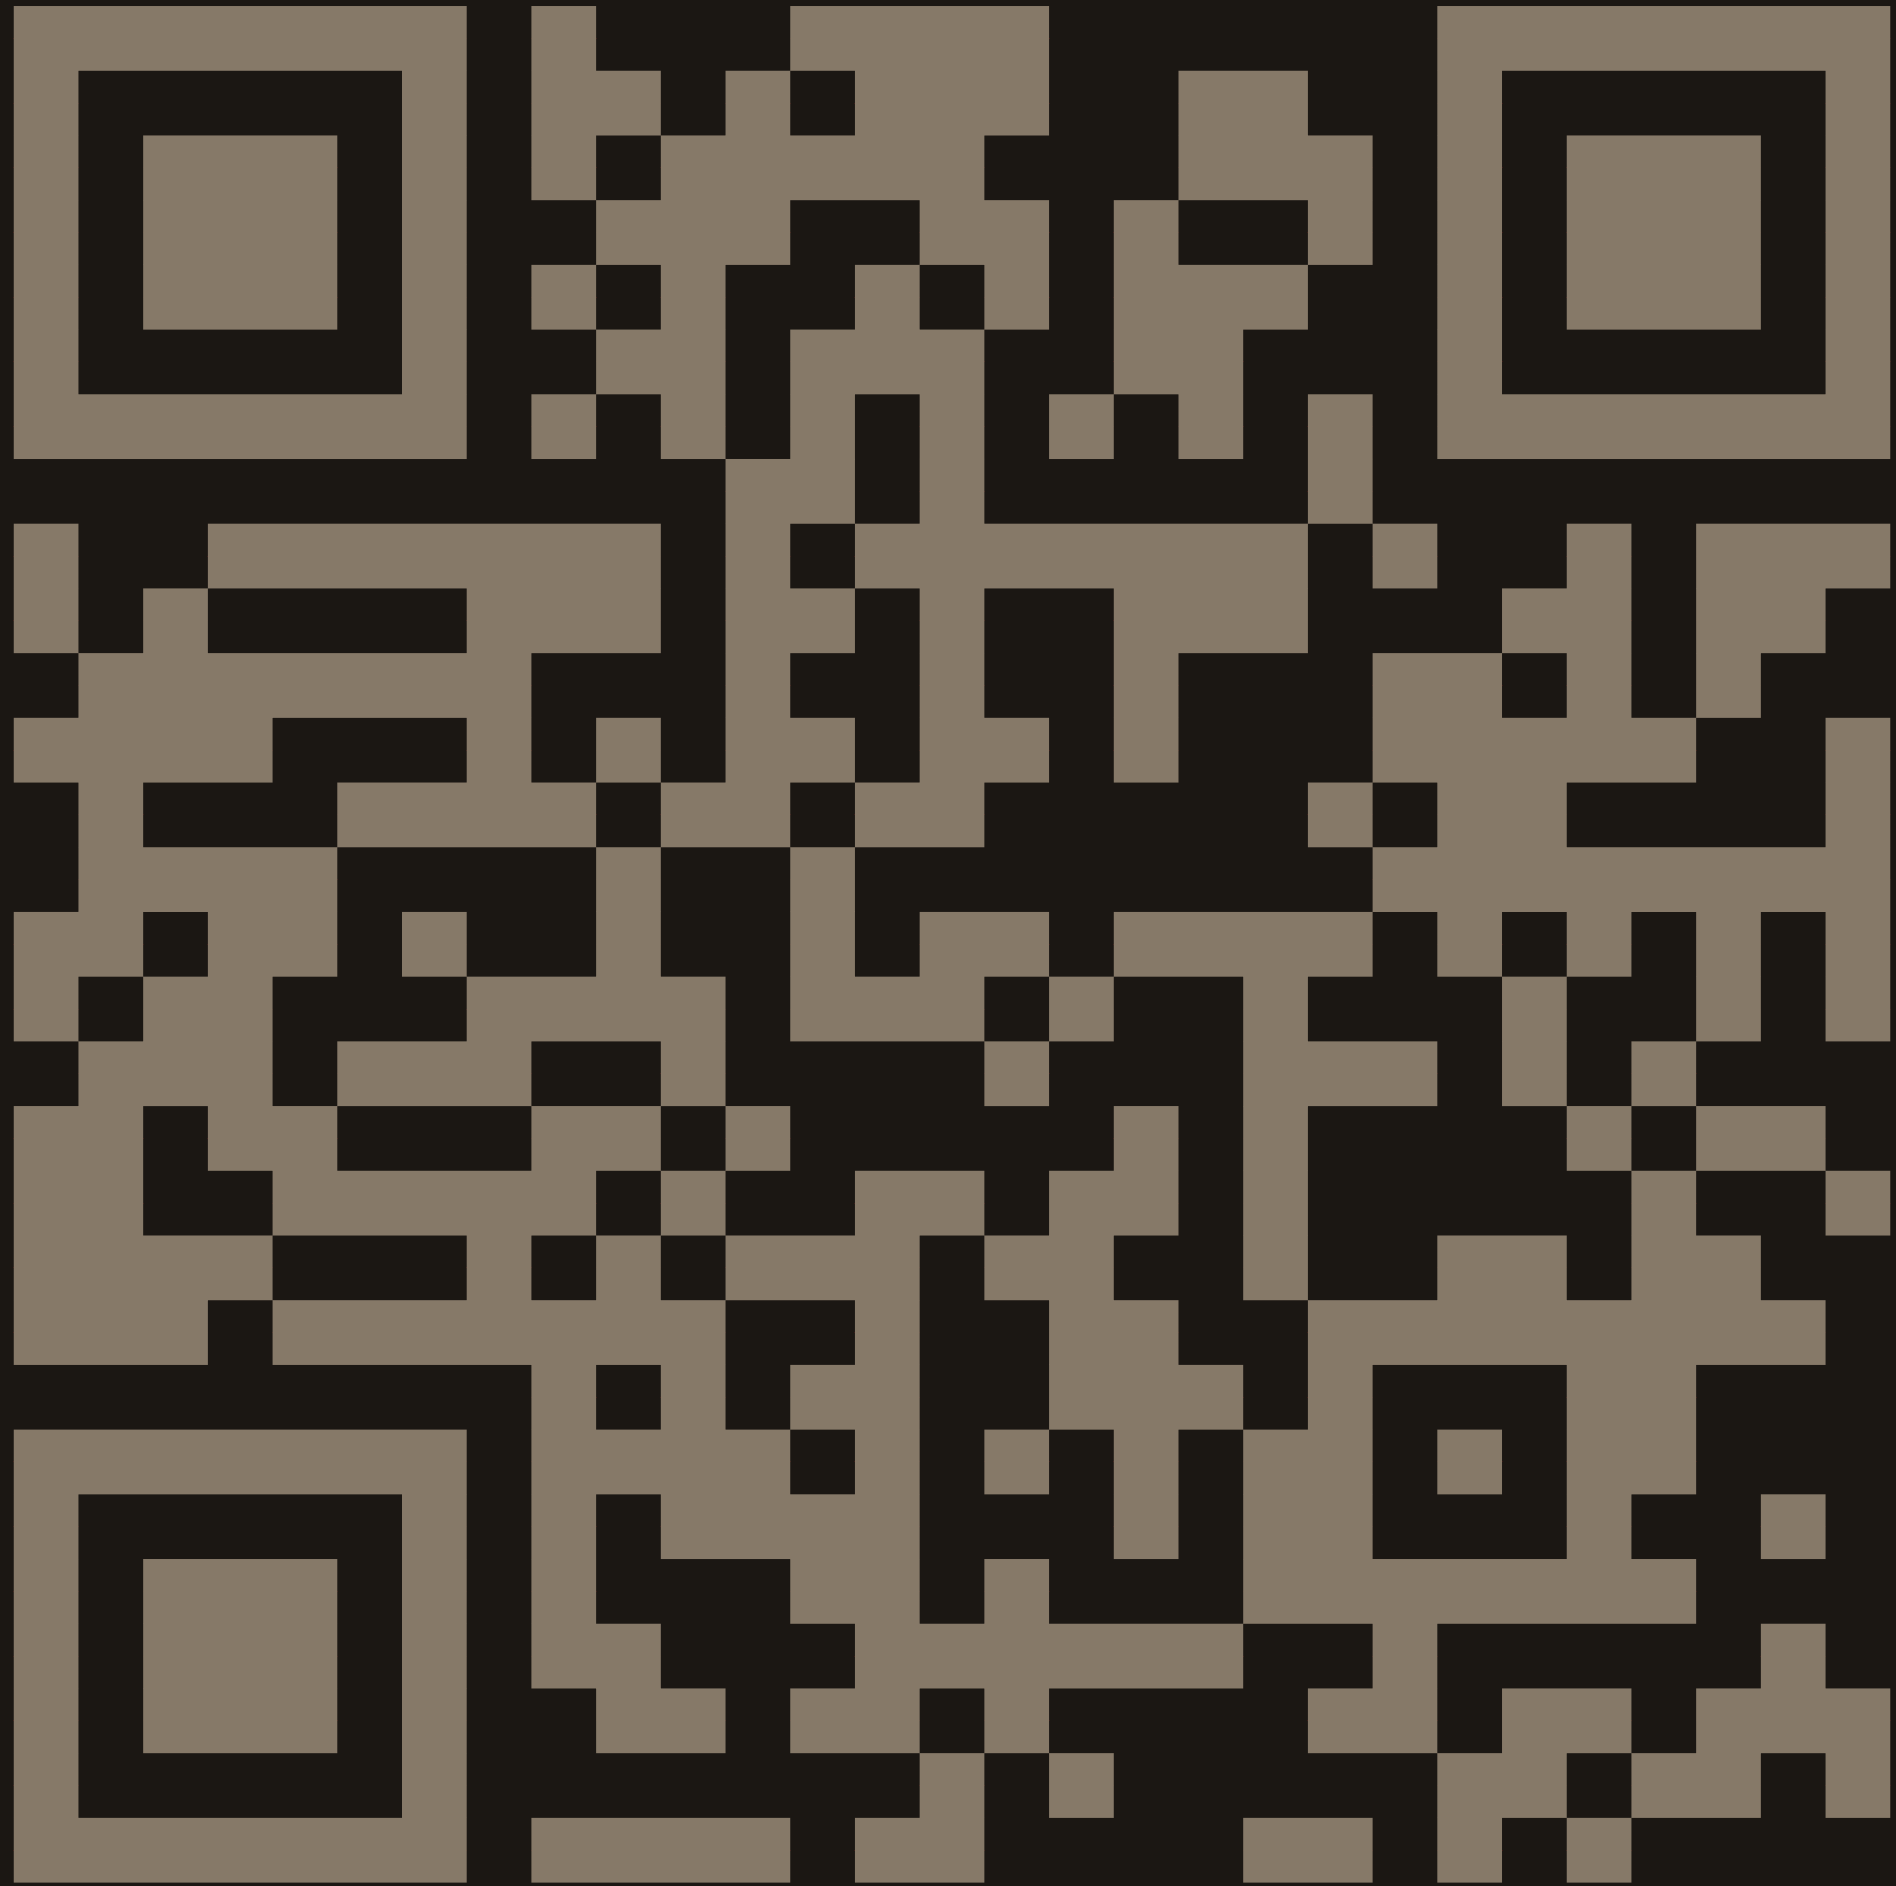

- better time to market
- better and proven quality in all aspects
- better usage of capacities
- lowering entry levels for new features
- optimised implementation costs
- wider product scope (complementary products like e-Com, customer support, etc.)
- Low/No-Code but on enterprise level

NOW WHAT?

A gift today

- certification & enablement for your designers
- present your company to client on golaiv.com
- communication on various channels
- publication of your cases on golaiv.com

YOU ARE WELCOME

Thank you
